# ELECTRICITY

The latest best practices for election officials.

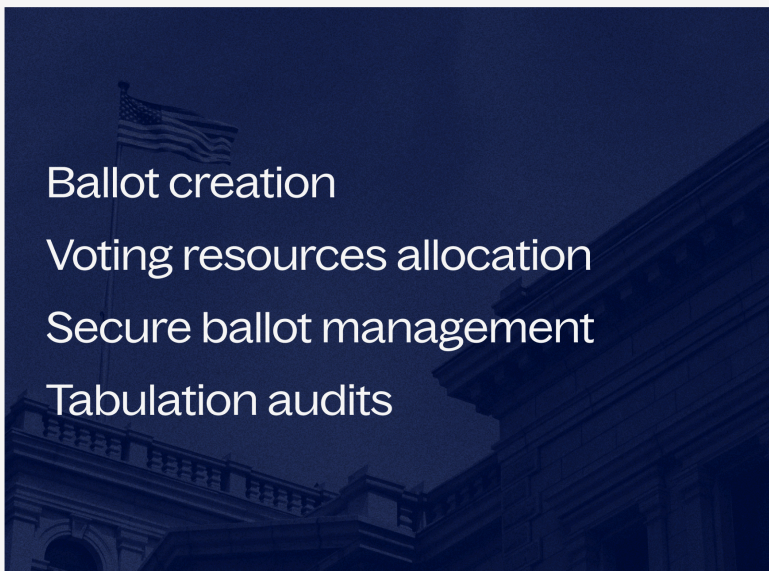

## Introducing Ballots and Audits Standards for Election Excellence

It's no surprise that handling ballots with high integrity is at the core of election officials' work because ballots express the will of voters. Creating well-designed ballots, storing those ballots securely, and conducting tabulation audits are all key pieces of the election administration process that ensure the legitimacy of elections' outcomes and promote voter confidence in the process.

To support election officials in these critical aspects of their work, today the U.S. Alliance for Election Excellence is pleased to release the latest set of Standards for Election Excellence, focused on ballots and audits. We invite you to [read more about each standard here](#).

Ballots and Audits Standards for Election Excellence

Ballot creation

Voting resources allocation

Secure ballot management

Tabulation audits

Do these standards seem achievable and impactful for your election office? Share your input and let us know. Your feedback is valued and will help make the ballots and audits standards even stronger and maintain our healthy democracy for years to come.
